25X1A

1. On 20 June 1959 [redacted] will have completed four years with this activity. Our request to Military Personnel Division for an additional year's extension was disapproved on the basis that he has not been performing duties in his career field [redacted]. In his memorandum denying the extension, Colonel Field also stated that [redacted] tour had been extended for a fourth year (until June 1959) with the clear understanding that he would return to his parent service in June 1959.

2. [redacted] as well as [redacted] can affirm the fact that [redacted] is performing within his career field and that because of the particular responsibilities he has been carrying out, his duties for an additional year are needed urgently due to the expanding operations of the Depot activity.

25X1A

3. We wish to point out that [redacted] returned from overseas on 6 March 1958 and in that he is presently serving in a "soft core area" or surplus field, there are undoubtedly numerous individuals who have never been overseas and fall in the same category as Brown from the standpoint of service.

4. Despite the fact that [redacted] will already have spent four years with this activity, it is requested that favorable consideration be given to his extension until June 1960.
